Operational Summary No. 0331. Headquarters 64th IAK
Antung, 26 Oct. 1951, 24:00 Map 500,000-41[1941 edition]

I.

1. The 64th IAK on 26 Oct took off from standby positions at the airfield to intercept and cover targets of the rear area and troops in the area of Antung, Anju, Tajsen and Siodzjo.

2. During the day, 154 sorties were carried out with 120 hours 04 minutes of total combat flying time.
Three air battles were conducted. Of them: one consisting of the corps, one consisting of the division and one consisting of the regiment.
Five enemy planes were shot down in the air battles. Of them: 1 F-86 and 4 F-80s.
Expended rounds: 993 rounds.
Our losses: Two crews did not return from the mission.

3. At night, the 351st IAP, took off, but did not participate because of the lack of enemy air force activity in the covered area. They were at readiness level 2.

4. The 303rd IAD carried out 132 combat sorties with 103 hours 46 minutes flying time. 1 F-86 and 1 F-80 were shot down by pilots of the division in air battles.
Our losses: Lieutenant Kordanov of the 17th IAP did not return from the combat mission.
Expended rounds: 129 N-37 rounds, 401 HS-23 rounds.

5. The 324th IAD carried out 22 combat sorties with 16 hours 18 minutes flying time. 3 F-80s were shot down by pilots of the division in air battles.
Our losses: Senior pilot, Senior Lieutenant Shebanov, of the 196th IAP did not return from the combat mission.
Expended rounds: 154 N-37 rounds, 309 HS-23 rounds.

6. From 6:07 to 6:44 three enemy groups of up to 64 fighters following a general course to Tehjsyu were discovered at an altitude of 4000-7000 meters in the area of Kosyu, Kajsyu, and Pyongyang.

At 6:30, under the command of Major Os'kin, 18 MiG-15s took off to intercept the enemy in the area of Tehjsyu and Slonusen. Enemy aircraft operated in the area of Ehdzyu and Dzyun'an and while our fighters were departing to the area of Anju, they left in a southeastern direction.
There was not an encounter with the enemy.

From 9:18 to 9:30, seven enemy groups of up to 80 fighters were detected in the areas of Kajsyu, Kinsen, and Tsinnampo by radar sites. Groups of 8, 12, and 16 planes at an altitude of 3000 to 10,000 meters flew in the general direction towards Dzyunsen and Anju.

From 9:37 to 9:45, the 303rd IAD, consisting of 18 MiG-15s of the 523 IAP under the command of Captain Okhaj, 20 MiG-15s of the 18th IAP under the command of Major Antonov, and 16 MiG-15s of the 17 IAP under the command of Major Pulov, were sent to intercept the enemy. In general battle formation under the command of Major Pulov, the division was sent to the area of Anju and Kaesong. The 17th and 18th IAPs made up the strike groups of the division, and the 523rd IAP was the screening group.

At 9:55, in the area east of Slonusen at an altitude of 8,000 meters, the 523rd IAP encountered and attacked 10 F-86s. The enemy fighters did not engage and departed towards the sea. The battle ended without results.

At 10:00, the 18th IAP was attacked by 12 F-86s, with whom they engaged, in the area of Dzyunsen at an altitude of 8,000 meters. One F-86 was shot down as a result of the air battle. The enemy plane was shot down by Senior Lieutenant Stepanovyj.

At 10:08, the 17th IAK encountered and attacked a total of 14 planes, 6 F-86s, 4 F-84s and 4 Meteor-4s northeast of P'yongyang.

p. 130 back

The enemy did not engage in battle and left descending in a southern direction into the clouds.
The battle ended without results.

From 10:25 to 10:44, four enemy groups of up to 62 planes were discovered in the area of Kajsyu, Saito and Kosyu heading in the general direction of Anju.

At 10:43, 12 Mig-15s of the 196th IAP under the command of Major Mitusov were scrambled and sent to the area of Anju, Dzyunsen and Ehjdzyu to counter the assault.

At 10:59, the 196th IAP encountered up to 20 F-80s, operating in twos, fours and sixes against ground targets in the area of Dzyunsen at an altitude of 5,000 meters .

On command from the leader, our fighters attacked and engaged the enemy. Three F-80s were shot down as a result of the air battle. Senior Lieutenant Shebanov did not return from the mission. The enemy planes were shot down by Captains Andreev, Ivanov and Dostoevskij.

From 14:22 to 14:30, radar sites in the areas of Nansinten, Kajsyu, Kosyu and Kajsen detected

up to 80 fighters and strike aircraft, in groups of 8,12,16 and 24 aircraft, heading in the direction of Anju and Tehjsyu at an altitude of 6,000 to 8,000 meters.

From 14:34 to 14:43, on command from the Corps CP, the 303rd IAD, consisting of 20 MiG-15s of the 523rd IAP, 22 MiG-15s of the 17th IAP and 18 MiG-15s of the 18th IAP, were scrambled. In a general battle formation under the command of Major Pulov the division was sent to intercept the enemy in the area of Anju and Dzyunsen. The 17th and 18th IAPs made up the strike groups of the division, and the 523rd was the screening group.

To strengthen and cover the disengagement of the 303rd IAD units, 10 MiG-15s under the command of Major Mitusov, were scrambled and sent to the boundary of Tehjsyu and Kaesong from 14:45 to 14:46.

At 14:54, the 523rd IAP, under command of Major Os'kin, encountered and attacked three enemy groups of up to 24 F-86s in the Dzyunsen region at an altitude of 8,000 to 12,000 meters. The enemy did not engage in active battle and departed in a dive towards the sea.

At 14:55, the 17th IAP, under the command of Major Pulov, encountered and joined battle with 14 F-80s and 8 F-86s south of Anju at an altitude of 3,000 to 2,000 meters.

p. 131 back

Major Pulov shot down 1 F-80 as a result of the battle.

Lieutenant Kordakov, who according to crew reports was shot down in an air battle and ejected in the area 15 kilometers north west of Slonusen, did not return from the mission.

At 14:58, the 18th IAP, under the command of Major Antonov, encountered and attacked 4 F-86s in the Kaesong region at an altitude of 7,000 meters. The result of the attack was not observed.

At 15:03, the 196th IAP encountered 8 F-86s, which were at an altitude of 9,000 meters, in the Anju region. Our fighters turned toward the enemy, who dove towards the sea. There was not a battle.

7. Command and control and guidance was carried out by the CPs of the corps and division with VPCh-2s.

8. Corps radar sites noted the flight of 374 fighters in groups of 8 to 30 planes during the course of the day on 26 Oct.

336 fighter and strike aircraft sorties were noted north of the Pyongyang and Genzan boundary.

The enemy air force operated in the Pyongyang, Dyunsen, Ehjdzyu and Anju regions; no flights were noted north of the Anju boarder.

13 singular sorties of B-26s and B-29s in the Anju, Tajsen, Kiodzio and Seisen regions were noted during the night at an altitude of 3,000 to 6,000 meters.

9. Weather: partly cloudy, morning haze, visibility 6-10 kilometers.

10. Combat strength:
- 303rd IAD: 90 MiG-15bis, 18 of them non-operative (including 9 damaged in battle and three without boost control). Pilots: 126 on the roster, 84 of them combat ready (including three newly assigned, three with no wing men assigned and two at the CP and VPCh), 25 infirm and suspended from duties by the VLK, seven recuperating in the health center, nine not brought into service, and one who did not return from the mission.

- 324th IAD: 51 MiG-15bis, three of them defective. Pilots: 92, 35 of them battle ready (including three newly assigned, five without wing men and two at the CP), five infirm, 19 recuperating at the health center, 32 not brought into service and one who did not return from the mission.

- No change for the 351st IAP.

11. The prisoners from the planes, downed on 23 Oct 51, are at the Headquarters of the 250th # [character has a strike above and below and is unidentified] Chinese Division in the Tehjsyu region and the Korean command.

1. Units of the 92nd Antiaircraft Artillery Division did not conduct fire on 26 Oct.
